REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Agreed that Park et al.'788 does not teach the claimed step of performing a reoxidation process to form a second insulating layer by depositing a transition element on the first insulating layer; and "a transition element oxide" by definition as argued by the Applicant, does not include nitride.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
